

AB 2146
Community College Intercession Bill

Sponsor: California Federation of Teachers

THIS BILL

AB 2146 (Chu) seeks to empower locals to negotiate whether work done by part-time faculty at colleges offering winter inter-session can be counted toward the 60 percent work threshold for temporary, part-time faculty.

CURRENT LAW

The current law excludes summer session from the 60 percent law but is silent on the issue of inner sessions. Alternative or “compressed” academic calendars that include sessions between the fall and spring semesters are causing confusing personnel practices in many of our districts.

SPECIFIC PROVISIONS OF AB 2146

Academic calendars are clearly within the scope of bargaining, and the passage of AB 2146 will place these issues squarely under local control through the bargaining process.
